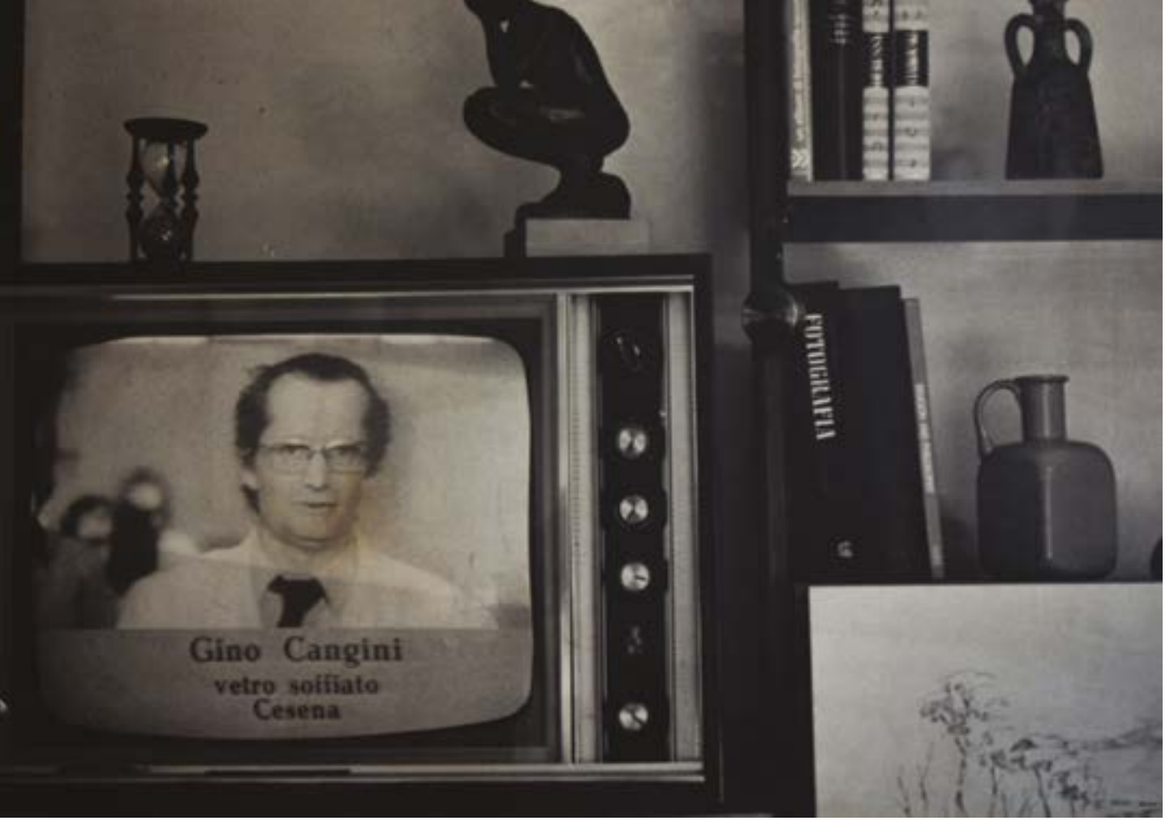
LINEE DI LUCE
LINES OF LIGHT

"Segni e linee prendono forma tra fuoco e materia.
La luce si descrive nell'irregolarità del vetro creando tenui ombre ed esaltando tutta la sapienza di gesti antichi, dove l'unicità della forma si sposa al design.
Questo è il nostro modo di interpretare e rendere viva la luce".

"Signs and lines take shape from fire and raw materials. The light is described in the irregularity of the glass creating soft shadows and enhancing all the wisdom of ancient gestures, where the uniqueness of the form is combined with design. This is our interpretation of bringing light to life".



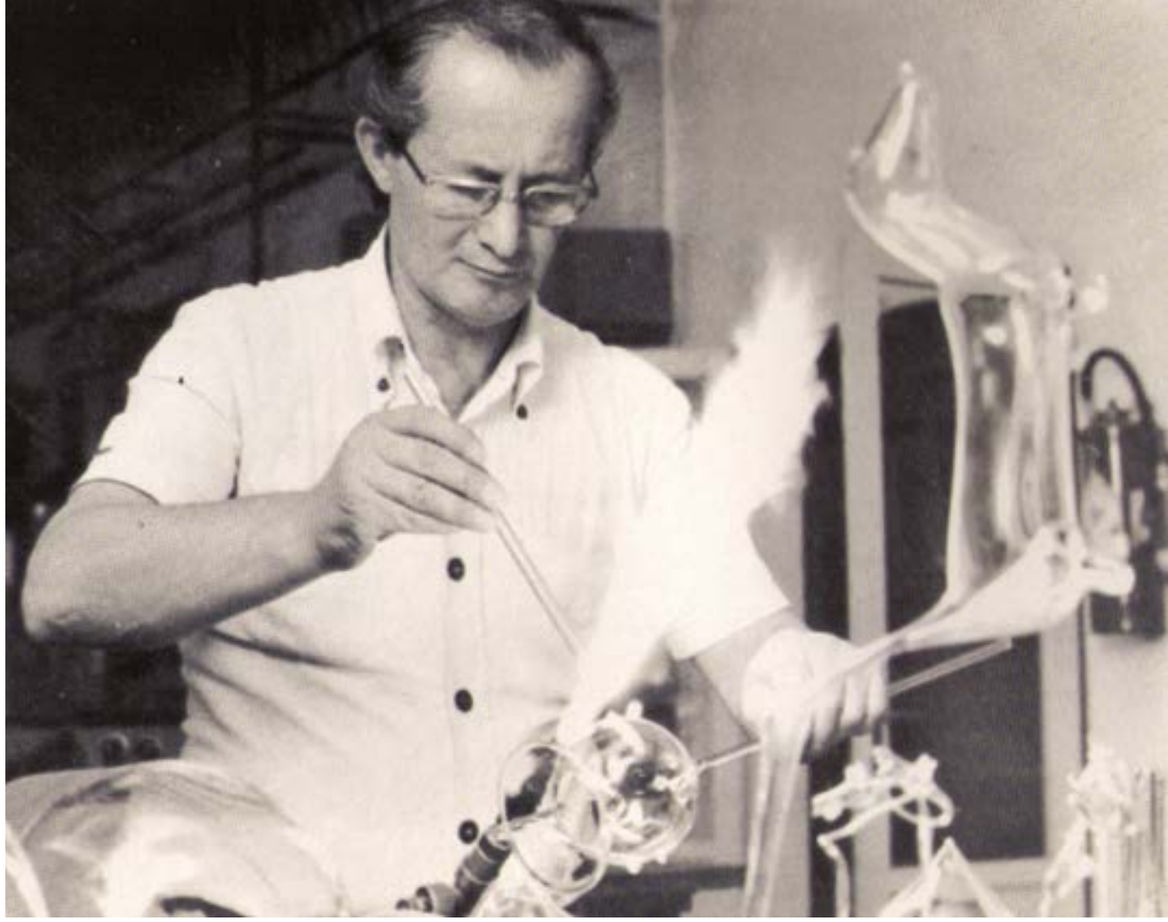
50 ANNI DI ATTIVITÀ

Fondata dal maestro Gino Luigi Cangini che apprende fin dalla giovanissima età varie tecniche di lavorazione del vetro. La vena artistica predominante lo ispira ad un'antichissima arte che consiste nella lavorazione di un vetro pregiato (borosilicato) soffiato a lume e modellato interamente a mano. Autentico ideatore, produce collezioni artistiche di oggetti da regalo e di arredamento per la casa.

Si occupa personalmente della formazione delle maestranze e tramanda la sua arte.

L'impresa continua tutt'oggi a mantenere la sua peculiare caratteristica artigianale e familiare sotto la conduzione del genero Pietro Tucci, con l'ausilio di Vanda Vera e Virna figlie di Gino Luigi. Nel corso degli anni la produzione è passata dall'oggettistica all'illuminazione. Dal 2001 si producono i primi lampadari ricevendo dai clienti stima e un ottimo gradimento da parte del pubblico. Tutto ciò ci ha a spinti ad incrementare il catalogo prodotti, fino ad affermarci totalmente nel settore illuminazione senza mai perdere le caratteristiche artigianali che ci contraddistinguono, investendo nell'innovazione e nel design.

Ogni pezzo della produzione del brand CANGINI E TUCCI, pur essendo simile, è reso unico, autentico e rigorosamente made in Italy.



50 YEARS OF BUSINESS

Founded by Gino Luigi Cangini, who learns from a very young age various techniques of glass processing. The predominant artistic talent inspires him to an ancient art that consists in the processing of a precious glass (borosilicate) blown and shaped by hand. Authentic designer, he produces art collections of gift items and home furnishings.

He personally takes care of the training of skilled workers and passed his art.

The company still continues to maintain its peculiar characteristic craftsmanship under the leadership of his son in law PietroTucci and with the help of Vanda Virna and Vera, daughters of Gino Luigi. Over the years, production has risen from objects to lighting. The first chandeliers are produced in 2001, tested by customers and warmly appreciated. All this has pushed to increase the product catalogue, to fully assert ourselves in the lighting industry without losing the artisan characteristics that distinguish us, investing in innovation and design.

Each piece in the production of the brand CANGINI E TUCCI, although similar between them, is unique, authentic and made in Italy.

La cura dei particolari, unita all'impiego di una superiore qualità dei materiali, costituiscono i nostri obiettivi principali, al fine di offrire alla stimata clientela un prodotto sempre unico nel suo genere.

Il design, la scelta dei particolari, dei decori e la variegata offerta dei colori, sono affidati ad abili esperti, che con grande passione studiano le soluzioni più interessanti per la modellistica. Ogni lavorazione viene eseguita interamente a mano e questo consente ad ogni nostro prodotto di essere assolutamente originale. Per questo motivo le dimensioni dei nostri oggetti possono variare di alcuni millimetri rispetto a quelle elencate, e siamo certi che questo aggiunge pregio e ne garantisce l'autenticità.

Detailed care, combined with the high quality materials, is our main goal, in order to offer to our estimated customers always a unique product

Design, choice of details, decorations and the range of colors are entrusted to our skilled experts that study, with great passion, the most interesting ideas for decorating our products. All items are completely handmade and this allows the product to be absolutely original. For this reason the sizes of our objects may vary by a few millimeters from those listed in the catalogue, but we believe that this gives our products a further value and guarantees its authenticity.

CERTIFICATO DI GARANZIA

Tutto quello che viene prodotto all'interno della nostra realtà è il frutto della più pura lavorazione artigianale, di conseguenza imperfezioni nel vetro, cambi tonali più o meno intensi del decoro realizzato a mano, i piccoli puntini, fino ad arrivare alle nostre creazioni più recenti, in cui ci avvaliamo di tecniche di metallizzazione del vetro anch'esse svolte artigianalmente, non vengono considerati difetti, ma pregi che ne garantiscono l'autenticità e rendendo il pezzo unico.

CERTIFICATE OF WARRENTY

Everything that is produced in our company is the result of the purest craftsmanship, consequently the glass imperfections, tonal changes more or less intense of the handmade decoration, small dots, up to our latest creations, where we adopt metallization techniques on glass, always craftsmanship, they are not considered defects, but qualities that guarantee the authenticity and making the piece unique.

A richiesta, i cavi di colore: **rosso**, **marrone** e **trasparente** (in silicone) sono disponibili per tutte le lampade a sospensione con attacco **G9** (consultare il listino per la differenza di prezzo).

*On request, the wires in colour: **red**, **brown** and **transparent** (in silicone) are available for all hanging lamps with **G9** (check the price list for the overcharge).*

Colori disponibili per tutti i prodotti dove c'è fonte di calore e dove l'elemento illuminante non ha aria a sufficienza per il raffreddamento.

***Colours available for all products** where there is a source of heat, and where the lighting element has not enough air for cooling.*

Colori NON disponibili per elementi illuminanti CHIUSI dove il calore della fonte luminosa non ha aria a sufficienza per il raffreddamento.

Si consiglia di non usarli nei diffusori chiusi come per esempio nell'articolo Goccia.
Per ogni linea è stata inserita la tabella cromatica per i diffusori, vi preghiamo di rispettarla.

***Colours NOT available for CLOSED lighting elements where the heat of the light source* does not have enough air for cooling.**

It is advisable not to use them in closed diffusers such as item Goccia.
For each series it has been inserted the color chart for diffusers, please respect it.

Il colore VIOLA con l'accensione della lampadina si opacizza.
Non è un difetto ma una reazione della luce sul colore stesso.

VIOLET colour becomes opaque with the lighting of the bulb.
It is not a defect but a reaction to the color of the light itself.

Colori disponibili / *Available colours*

Colori metallici disponibili / *Metallic colours available*
